

HELLO!

We are 6-14 year olds from all over Wellington. We are learning to perform to an audience. For some of us, this is our first time on stage. Wonderplay shows are lower tech to help students master the basics, one-step at a time, and to ensure that our actors are the main attraction. Wonderplay usually does not use microphones so that the children can practice filling the whole space with their big beautiful voices. You may not hear us all the time, but we will give it our best shot- it might be that we're working on something else right now like facing the audience, listening or even just getting on to the stage. Our main focus is fun and having a nice time. We hope you do too! Thanks for coming to see us, it means HEAPS!

SPECIAL THANKS

All of our wonderful family members and friends for the backstage and at home help! Thanks to the Renton families for taking on a full load of props to create!
